

## 16-kg Breaker GSH 16-28

40% more material removal in the 16kg class

- Extremely high material removal rate due to 45 J
  - single impact force and 1750 watt motor power
- Extremely long lifetime due to robust design and
  - use of high-quality materials
- Vibration Control for up to 60% less harmful vibrations and, therefore, longer operating time and
  - greater convenience

Unique: the GSH 16 Professional can be easily and conveniently transported on

- rollers in the trolley that is supplied as standard
- Excellent handling thanks to the large handle

The on/off switch is perfectly positioned, which prevents the tool from being

- switched off unintentionally

### Part no. 0 611 335 060

- Pointed chisel 400 mm (2 608 690 106)
- Grease tube (ET no. 1 615 430 010)
- Machine cloth
- Trolley (2 605 438 628)
- Carrying handle

---

Voltage, electrical	110 V

### **Technical data**

---

Rated power input	1.750 W
Impact energy	45 J
Impact rate at rated speed	1.300 bpm
Weight without cable	17,9 kg
Length	760 mm
Width	255 mm
Toolholder	28 mm internal hexagon
